TacoFest3004 Personal Logs

Week 1 (Sept 19-25)
Discussed the app idea and decide to go with #Goals.
Worked with writing D1.
Each one had to write what the app is about and what makes it interesting and then compared what we have to get the final proposal.
Wrote the functional and non-functional requirements.
Wrote the final edits in LaTeX.
Scrum was paused till after D1.

Week 2 (Sept 26 - Oct 2)
Decided what to focus on for the demo - "create course profile, alerts, and create student profile.
Missed the meeting on Saturday but got to draw the final version of the UC diagram for the D2.

Week 3 (Oct 3-9)
Met with the group and worked on the UC and class diagrams.
Got everything decided to start programming the demo.
